

Friday 3rd June 2016 Tower Lecture Theatre, Guy's Hospital

Registration: Roben's Suite, 29th Floor, Guy's Hospital		08:10 – 08:50
<u>Updates on Imaging, Preoperative Assessment and Optimisation</u>		08:55 - 10:00
<u>Moderators:</u> Dr Tarun Sabharwal & Mr Mark Tyrrell		(Talk: 8 min.- Discussion: 2 min.)
Duplex as the first line diagnostic and follow-up modality for tibio-pedal disease	Dr Soundrie Padayachee	09:00-09:10
Pre-operative optimisation of patients with peripheral arterial disease	Dr Jugdeep Dhesi	09:10-09:20
Intra-operative optimisation and challenges in patients undergoing complex lower limb revascularisation	Dr Heena Bidd	09:20-09:30
Atherosclerotic plaque analysis: A novel predictor of outcome following Femoro-Popliteal angioplasty	Mr Sanjay Patel	09:30-09:40
CO2 Angioplasty: Feasibility, benefits and Limitations	Dr Athanasios Diamantopoulos	09:40-09:50
Training to be a specialist peripheral interventionist: Opportunities and challenges	Mr Keith Jones	09:50-10:00
<u>Above the Knee</u>		10:00 – 11:30
<u>Moderators:</u> Mr Hany Zayed & Professor Andrej Schmidt		(Talk: 8 min.- Discussion: 2 min.)
Endovascular Management of Complex Aorto-Iliac occlusive disease: Feasibility and Outcomes of CERAB technique	Dr Peter Goverde	10:00-10:10
Femoro-popliteal CTO: How to treat, and outcomes	Prof. Andrej Schmidt	10:10-10:20

<p>Endovascular treatment of femoro-popliteal disease:</p> <ul style="list-style-type: none"> - POBA with Bail-out stenting is the best strategy - DCB with bail-out stenting is the best strategy - Primary stenting/DES is the best strategy - We don't know what the best strategy is: BASIL-3 will tell us 	<p>Mr Rob Davies</p> <p>Dr Konstantinos Katsanos</p> <p>Dr Mo Hamady</p> <p>Prof. Andrew Bradbury</p>	<p>10:20-10:30</p> <p>10:30-10:40</p> <p>10:40-10:50</p> <p>10:50-11:00</p>
<p>Hybrid revascularisation techniques in complex and multi-level disease: The way forward</p>	<p>Mr Prakash Saha</p>	<p>11:00-11:10</p>
<p>Bypass surgery for femoro-popliteal disease: Still the gold standard</p>	<p>Mr Rob Hinchliffe</p>	<p>11:10-11:20</p>
<p>Thrombolysis - mechanical and pharmacological</p>	<p>Prof. Duncan Ettles</p>	<p>11:20-11:30</p>
<p>Coffee Break 11:30-12:00</p>		
<p><u>How I do it</u> 12:00-13:30 <u>Moderators:</u> (Talk: 7 min.- Discussion: 3 min.) Mr Hany Zayed & Dr Mo Hamady</p>		
<p>Covered Endovascular Reconstruction of Aortic Bifurcation (CERAB): Tips and Tricks</p>	<p>Dr Peter Goverde</p>	<p>12:00-12:10</p>
<p>Re-entry devices: Tips and tricks</p>	<p>Dr Panos Gkoutzios</p>	<p>12:10-12:20</p>
<p>Treatment of popliteal artery trifurcation: Different techniques</p>	<p>Dr Irfan Ahmed</p>	<p>12:20-12:30</p>
<p>Endovascular treatment of popliteal aneurysms</p>	<p>Mr Said Abisi</p>	<p>12:30-12:40</p>
<p>Loop technique: Tips and Tricks</p>	<p>Dr Lanfroi Graziani</p>	<p>12:40-12:50</p>
<p>Retrograde access: Tips and Tricks</p>	<p>Prof. Andrej Schmidt</p>	<p>12:50-13:00</p>
<p>Hybrid revascularisation</p>	<p>Mr Tommaso Donati</p>	<p>13:00-13:10</p>
<p>Managing distal embolization during complex angioplasty</p>	<p>Prof. Roberto Gandini</p>	<p>13:10-13:20</p>

<p>Industry Update</p> <p>Cook Medical: Update on Zilver Vena VIVO EU study</p> <p>Abbott Vascular: Endovascular treatment of complex femoropopliteal lesions: is there a place left for surgery with modern implants at hand?</p>	<p>Dr Gerry O'Sullivan</p> <p>Dr Jörg Teßarek</p>	<p>13:20-13:30</p> <p>13:30- 13:40</p>
<p>LUNCH 13:40-14:30</p>		
<p><u>Below the Knee</u> 14:30-15:30 <u>Moderators:</u> (Talk: 8 min.- Discussion: 2 min.) Dr Tarun Sabharwal & Professor Andrew Bradbury</p>		
<p>CTO of the popliteal artery and trifurcation: Treatment options, tips and tricks</p>	<p>Prof. Andrej Schmidt</p>	<p>14:30-14:40</p>
<p>Recanalization of below the knee CTO: Challenges and techniques to improve outcome</p>	<p>Dr Lanfroi Graziani</p>	<p>14:40-14:50</p>
<p>POBA, DCB or DES in tibial vessels: Which strategy to use and when</p>	<p>Dr Konstantinos Katsanos</p>	<p>14:50-15:00</p>
<p>Alternative techniques to treat complex BTK occlusions</p>	<p>Prof. Roberto Gandini</p>	<p>15:00-15:10</p>
<p>Predictors of outcomes following tibial endovascular procedures</p>	<p>Mr Lukla Biasi</p>	<p>15:10-15:20</p>
<p>Distal bypasses vs angioplasty for infra-popliteal disease</p>	<p>Mr Hany Zayed</p>	<p>15:20-15:30</p>
<p>BASIL-2 Trial</p>	<p>Prof. Andrew Bradbury</p>	<p>15:30-15:40</p>
<p>TEA 15.40-16.10</p>		

<u>Near-misses and How I got it wrong</u>		16:10-16:55
<u>Moderators:</u> Mr Hany Zayed & Dr Lanfroi Graziani		(Talk: 7 min. - Discussion: 2 min.)
<u>Venous session</u>		16:55-17:55
<u>Moderators:</u> Dr Tarun Sabharwal & Mr Stephen Black		(Talk: 8 min.- Discussion: 2 min.)
Management of ilio-femoral DVT: Updates and outcomes	Dr Gerry O'Sullivan	16:55-17:05
Updates on endovenous treatment of superficial venous disease	Mr Stephen Black	17:05-17:15
Post-stenting anticoagulation protocols and updates on new oral anticoagulants	Dr Karen Breen	17:15-17:25
Endovenous management of ilio-femoral DVT: How I do it in a step-by-step approach	Dr Shazad Ilyas	17:25-17:35
Stenting for chronic ilio-femoral venous occlusion: How I do it in a step-by step approach	Dr Gerry O'Sullivan	17:35-17:45
Venous Interventions - They are never easy: Near misses	Mr Stephen Black Dr Gerry O'Sullivan	17:45-17:55
17:55-18:00 Conclusion and Closure	Mr. Hany Zayed and Dr. Tarun Sabharwal
